The Jigsaw And The Fan is described as social satire. How much trouble can one disgruntled ghost really cause? Albert Carter has died, and finds himself in the spirit world, to get sorted out at St Christopher's gates. Having been a successful shop steward picketing the management of Jebson's Glue Factory on behalf of his colleagues, he feels confident his final destination is Heaven, with the rest of the decent, honest working class. However, on arrival at St Christopher's Doomsday Ministry, an inspectors' strike means all spirits in transit have to be temporarily repatriated to Earth as ghosts, until the dispute is settled. Albert's ghostly assignment is his worst nightmare: a wealthy Lord's manor which operates on the hard-earned wages of his own class. Immediately on arrival, he decides to ruin the capitalist family, and begins his unlawful haunting as the Ghost of Marlston Manor. Watching him from the heavens is a host of guardian angels, elders, overlords and scribes – all scrambling to undo the havoc that Albert is blunderingly creating in his short stint as a ghost. The final straw comes as Albert riles up a "fright" of ghosts to collude and protest their sentences on Earth – and Albert finally faces St Christopher.
