With their parents killed by an evil feudal overlord, who wants Azuki for the valuable feathers she produces when she is a Toki bird, Azuki feels she must flee. It's all her fault, isn't it? She is the one with the cursed ability to turn into a bird! Shota, her brother, can become a sparrow, but nobody wants his plain brown feathers. Armed with information from their dying mother, he must reach his sister to tell her they will lose their inheritance and will no longer be able to live in human society unless they can return to claim it! While Azuki searches for her Toki-kin, encountering Egrets, storms, a fierce mountain ogre and even a dragon, Shota, smaller, slower, follows a dream of his late father to track his sister to the Toki nesting grounds, discovering in himself a love of the sea, and a way to get them home in time.
