In part one of the Brothers Mine trilogy, personal chef Cece Grace finds herself eavesdropping on her boss. She always knew the New York senator wasn't a nice guy, but she learns it goes much deeper. Cece is whisked away by an FBI agent after the senator wants to permanently end her snooping. Cece finds herself in protective custody on a ranch in Montana. The tough, but naïve, Cece starts to fall for her protector Jake Maguire.

The triangle heats up when Jake's brother comes to stay with them after a failed mission. Cece nurses Riley back to health and soon realizes that she has feelings for this brother, too. The sizzling attention from the brothers makes her forget her problems in New York, but they soon come to find her. And it is up to the brothers and their crew to protect her.
