Amy never wanted to be a hero.

But when the terrifying nightmare that has been plaguing her for weeks starts playing out right in front of her, she does what anyone would do— she saves the boy from her dreams, Sam Perez. Except Sam isn't safe for long, and Amy finds herself racing against time to understand her strange ability and try to protect him from something she hasn't even begun to understand. Echoes of Azure is the first book in the Guardian trilogy, a world-bending science fiction adventure series that challenges the limits of reality and questions how far a person will go to save someone they love.
